JANESVILLE, WISCONSIN. FRIDAY, MARCH 12 1897

NUMBER 4

THE FARMERS FAVOR
GOOD HARD ROADSASSEMBLY BILL IS ENDORSED
AT APPLETON.

Resolution Is Adopted At the Institute Roundup Commending the Theory of the State Bearing Part of the Expense of the Work—Some State Specials.

Chippewa Falls, Wis., March 12—Christ Episcopal church was destroyed by fire yesterday afternoon. The personage was saved only through the determined efforts of the firemen. The loss is \$12,000, with \$4,000 insurance. A new pipe organ, recently purchased was also destroyed in the blaze. The fire is supposed to have originated in the basement of the church, although Pastor E. J. Evans said that no one had entered the edifice for twelve hours previous to the discovery of the fire. It will probably be rebuilt at once.

Berlin, Wis., March 12—The house of Joe Pochecki, in this city, was burned this morning. It caught fire from a chimney. Both house and contents were insured.

FAVOR THE GOOD ROADS BILL.

Farmers' Institute at Appleton Gives Endorsement to the Measure

Appleton, Wis., March 12—The closing session of the last of the state farmers' institutes was held yesterday, and the following resolutions on good roads were adopted:

RESOLVED, That we contemplate with pleasure the continuous advancement of public sentiment in regard to the construction of gravel roads in our state.

That we propose to continue to foster this sentiment, and in all proper ways work to the end of having systematic work and permanent stone roads leading to the various business centers in localities, thus insuring to every tax payer personal benefits proportionate to the tax he may pay.

That while we believe roads should be under local control, to the end that all that may be beneficial shall in some measure bear a part of the expense, therefore we favor the passage of joint resolution No. 10a, which contemplates an amendment to section 1, article 8, of the constitution of Wisconsin, allowing state aid in the construction of wagon roads for free public travel.

Big Lumber Deal.

Marquette, Wis., March 12—A large lumber deal was consummated here. The Metropolitan Lumber company sold to the Rib Lake company of Rhinelander 25,000,000 feet of lumber log run. The lumber is piled in the yards at Atkinson, Mich. The Rib Lake company will erect a planing mill at Atkinson. The price paid was in the neighborhood of \$300,000.

Oshkosh to Lose an Industry.

Green Bay, Wis., March 12—C. Steich Jr., of Oshkosh, member of Steich & Son's whose wagon factory at that city was destroyed by fire, was in Green Bay looking after a site upon which to rebuild the plant, it having been decided to leave Oshkosh. From here he will go to Manitowoc.

Andrew Gilbertson Named.

Mark Townsend Held.

Muscatine, Wis., March 12—Mark Townsend's examination closed at 9 o'clock last night. He is held for trial at the circuit court on the charge of the murder of his wife. The crime is supposed to have been committed 12 years ago.

Passenger Train Wrecked.

Stevens Point, Wis., March 12—A Green Bay & Western passenger train was wrecked by a broken journal on the tender, ten miles east of this city. No one was hurt, but traffic was delayed eight hours.

Storm in Northern Wisconsin.

Superior, Wis., March 12—The mild snow storm which struck this city Thursday turned into a severe blizzard extending over a great portion of the northwest. Reports from all towns on the north shore of Lake Superior indicate a heavy fall of snow, with increased winds. Most of the incoming trains arrived on time, but those going out were accompanied by extra engines with snow plows.

Vetoed by Gov. Budd.

Sacramento, Cal., March 12—Gov. Budd has vetoed bill 273, relating to the transfer of civil suits, the passage of which by the legislature has caused much scandal. The Examiner charged that bribery was used to pass the bill and Managing Editor Lawrence and one reporter of the Examiner have been ordered imprisoned by the senate for contempt.

THEY SAY LEE WILL RESIGN

The Consul General's Friends Insist That He Is Dissatisfied.

Havana, March 12.—Personal friends of General Lee affirm that as soon as he shall have settled all the pending matters he has in hand and put them in proper shape he will resign and return to the United States.

The Ruiz incident is still occupying the attention of Consul General Lee. As already reported, Spain has ordered a new investigation of the facts which led to Ruiz's death, but General Lee is quoted as saying he does not clearly see how the investigation can be properly carried out, or how an impartial trial can be held, since no witnesses will testify against Major Fondevila or the warden of the jail.

American Will Not Be Released.

Havana, March 12.—The judge of the court of Guanabacoa has ratified the action of the Spanish authorities in imprisoning Charles Scott, the American citizen who was arrested on February 9 on the charge of having Cuban postage stamps in his possession. This means that the case will continue under ordinary procedure until it is finally disposed of.

Mrs. Ruiz in Washington.

Washington, March 12.—Mrs. Ruiz, the wife of the naturalized American dentist alleged to have been murdered in a Cuban prison, accompanied by one of her children, was at the state department Thursday and had a short interview with the officials.

Sherman Wants Lee to Remain.

Havana, March 12.—La Lucha says that Secretary Sherman insists upon Consul General Lee remaining at Havana.

Indiana Convict Labor Stopped.

Michigan City, Ind., March 12.—Warden Harley of the Indiana state prison has ordered the instant suspension of all work by every convict not hired by binding contract. This sudden action was due to the discovery that an emergency clause was attached to a bill passed by the general assembly abolishing contract labor, and the bill thus became a law as soon as Governor Mount signed it. The new law provides that contract work shall be abolished as fast as existing contracts expire, and by the end of the year more than 300 men will be idle.

Disturbance at a Peace Meeting.

New York, March 12.—The citizens' mass meeting, called for the purpose of indorsing the ratification of the arbitration treaty between this country and Great Britain, at Cooper Union Thursday night, through the speech of Civil Justice Waugh Lynn, was turned from a meeting of peace into one of turmoil. For a time it appeared as if the police would have to interfere to restore order. Although the excitement was great, the meeting concluded without any serious disturbance.

To Complete the Nicaragua Canal.

Washington, March 12.—The first diplomatic venture of the new administration is along the lines of completing the Nicaragua canal and the consolidation of the five Central American republics into one grand political organization. Diplomatic negotiations are now under way which, if successfully carried out, will bring the United States of America and the republics of Central America together under a treaty that will pave the way for putting into effect the two plans referred to.

Taylor's Going Is Not Regretted.

Madrid, March 12.—News of the approaching recall of United States Minister Taylor is received here with indifference. The Spanish government would like him to be replaced by a person in the full confidence of President McKinley. Diplomats say that this would make closer the relations of the two countries.

Dockers' Strike Unsettled.

Ludington, Mich., March 12.—The condition of the dockers' strike is more aggravated than ever. The strikers offered to work for 18 cents an hour, but no reply has been received. Over 1,300 men have been brought here, and 1,100 have gone away again. The new hands have been cut down to 10 cents an hour.

Gold Standard for Japan.

London, March 12.—A dispatch to the Times from Yokohama states that the house of representatives of the Japanese parliament has adopted the gold standard of currency. The question has been widely agitated for a number of months by the progressive element in government circles.

Methodists Will Admit Women.

Nevada, Mo., March 12.—At the session of the St. Louis conference of the Methodist church Thursday the question of admitting women as delegates to the general conference was carried by 76 to 23. The proposition for equal representation of laymen and ministers was voted down by 67 to 23.

Anti-Cigarette Bill.

Springfield, Ill., March 12.—Among the bills introduced in the senate Thursday was the following: By Senator Stubblefield—To prohibit the manufacture and sale of cigarettes and imposing a fine of not less than \$100 or more than \$200 and imprisonment for violation of the act.

FRANCE IS AGAINST
COERCING GREECEIS WILLING TO KEEP HER
HANDS OFF.

Other Powers Said to Have Reached An Agreement—Germany will Not Recede a Step—Greece Thanks the American Senate for the Resolution of Sympathy Recently Passed.

London, March 12.—The correspondent of the Associated Press learns from a reliable source that the powers have nearly agreed to present a fresh note to Greece, notifying her of their intention to carry out the coercive measures if she still continues obdurate, and to enforce a blockade. It is understood that France is the only power reluctant to participate in the blockade, which will be begun without her if she declines to give her consent.

The Times correspondent thinks that matters have now reached an impasse.

It is impossible for the powers to go back on their demand that Greece should evacuate Crete, while public feeling in Greece is so excited that it is doubtful whether the country would even tolerate the conversion of the Greek army in the island into gendarmes.

The Greek press generally counsels prudence on the Turkish frontier, where the Greek population is defenseless against the Turkish troops. Nevertheless, it is the almost universal opinion that war must break out, and the war department is straining to the utmost to make provision of arms and outfit for the reserves. Ten thousand of these are still unequipped. From earliest dawn to late at night drilling, parades and rifle practice go on unceasingly.

The Athens correspondent of the Times, outlining the proposals of the powers, learns on the highest authority that Greece would accept them on condition, first, that the Turkish troops are immediately recalled from Crete; second, that the Greek forces now in the island are placed under command of a military representative of the powers, senior in rank to Col. Vassos, for the sake of the restoration of order; and, lastly, that the powers induce Turkey to withdraw a portion of her troops from the Greek frontier, Greece doing the same.

Greece regards the latter condition as most urgent, in view of the fact that the excitement in Thessaly, not only among the troops, but among the armed peasants, has reached such a height that a conflict is possible at any moment, involving the outbreak of war.

Jealous of Grecian Fleet.

Athens, March 12.—The King of Greece, talking to a member of parliament, is quoted as saying: "Europe is alarmed, not on account of the annexation of Crete to Greece, but because events have shown that Greece is an element of force in the Mediterranean. Our rapidly mobilized fleet created jealousies. I myself ordered the recall of the Hydra and Mios from Cretan waters, because I feared our rivals would seize a pretext to destroy two of our first-class ships."

Germany Will Yield Nothing.

Berlin, March 12.—The National Zeitung semi-officially announces that Germany will not take part in any negotiations suggesting another note to Greece, adding that Germany insists upon upholding the original ultimatum.

Thanks the American Senate.

Athens, March 12.—M. Skouzes, the Greek minister of foreign affairs, has cabled the thanks of the Greek government to the United States senate for the resolution of sympathy recently adopted by that body.

Connecticut Factories Shut Down.

Southampton, Conn., March 11.—All of the factories of the Peck, Stowe & Wilcox Company, manufacturing edge tools and general hardware, have shut down indefinitely. This throws out of employment a large number of hands, who for the last six months have been working on a short schedule. The Aetna Nut Company's nutworks and rolling mills are also at a standstill, and the works of the Southington Cutlery Company are running on short time.

Carnegie Makes a Strong Alliance.

Philadelphia, March 12.—A special from Harrisburg says: It is reported here that a combination has been formed between Carnegie and the Pennsylvania Steel company, whereby the former is to furnish the latter with all soft steel billets at \$1 per ton less than it costs to make them at Steelton, and that the Sparrow's Point plant is to roll all Carnegie's rails for water shipment. This will knock out the open hearth business at Steelton.

Hon. Color R. Hitt Dead.

Albany, N. Y., March 12.—The Hon. Galen R. Hitt, a noted criminal lawyer and an ex-member of the state legislature, was found in an unconscious condition on the floor of his room at his residence at Round Lake at 5 o'clock Thursday and died at 7 o'clock without having regained consciousness. The cause was apoplexy.

Comptroller Issues a Call.

Washington, March 12.—The comptroller of the currency has made a call on national banks for a report on their condition at the close of business Tuesday, March 9.

FEAR GREAT FLOOD
IN THE NORTHWESTSEVERE BLIZZARD HAS BEEN
RAGING ALL DAY.

Fall of Snow Almost Unprecedented—Rivers Are Rapidly Rising and Farmers Have Been Compelled to Move to Places of Safety—Storm News.

St. Paul, Minn., March 12.—It snowed furiously all day Thursday in St. Paul, several inches being added to the great depth of that already on the ground. At several points north and west of St. Paul trains are wholly abandoned, and little effort is being made to move them on the branch lines. So certain is it that there will be a big flood when the snow disappears that residents on the low lands are beginning to prepare for it.

DRIVEN FROM THEIR HOMES.

Wabash River Reaches the Danger Point—Damage Elsewhere.

Mount Carmel, Ill., March 12.—Last Thursday night this section was visited by a heavy rainfall, and since that time the Wabash, White and Patoka rivers have risen rapidly. The Wabash stands at twenty-seven feet on the government gauge, which is within fifteen inches of the highest point ever reached, that of the August freshet of 1875. The river at this point is not less than seven miles wide. A great deal of corn and stock in the bottoms will be lost. The depot at East Mount Carmel is full of men, women and children, driven from their homes by the water. Many are without food or proper clothing.

Memphis, Tenn., March 12.—The Mississippi river at this point has reached a point one foot above the danger-line, and will rise several feet higher. The steamboat captains on vessels from the south report that little alarm is felt by planters, and that a slight overflow would be of benefit at this time.

Burlington, Iowa, March 12.—The river is rising rapidly. Farmers on the low lands north of Burlington are preparing to move before the flood reaches them. The ice is still running heavily.

The weather is mild.

Blizzard in South Dakota.

Huron, S. D., March 12.—A snow and wind storm began raging here Thursday. Reports from points north, west and east along the line of the Chicago & Northwestern railway say the storm is equally severe in those directions. All trains on this division are tied up or abandoned. The storm extends from Manitoba to Nebraska and from the Black Hills far into Minnesota. Gettysburg and points in that vicinity are out of fuel.

From four to six feet of snow covers the ground in this part of the state.

Ice Is Three Feet Thick.

Yankton, S. D., March 12.—The ice on the Missouri and James rivers is three feet thick—a condition unknown before at this time of the year. It is very probable that both streams will overflow their banks and inundate the bottom lands. The heavy snow is melting rapidly, and the farmers are moving their effects to the higher lands. The lowlands are covered with water. The ice in the Missouri river holds up about two feet of water and the flood is rising.

Heavy Snow at St. Cloud, Minn.

St. Cloud, Minn., March 12.—The greatest snowstorm of the season is raging all over this section. The weather is cold, the snow is drifting, and a general blockade will be the result.

Business is entirely suspended. It is impossible for farmers to reach here with wood, as the snow in the roads is between three and four feet deep.

Funeral of Mrs. Beecher.

New York, March 12.—The funeral services of Mrs. Henry Ward Beecher were held at Plymouth church, Brooklyn, Thursday afternoon. They were conducted by the Rev. Dr. Lyman Abbott, who was assisted by several other clergymen. At the conclusion of the funeral services the body was buried beside that of Mr. Beecher in Greenwood cemetery.

Kankakee Trustees Named.

Springfield, Ill., March 12.—Gov. Tanner transmitted to the senate Thursday the following appointments as trustees of the Illinois eastern hospital for the insane at Kankakee: Len Small of Kankakee, to fill vacancy heretofore existing; John J. Magee of Chicago, to succeed Edward Sill, resigned; and George T. Buckingham of Danville to succeed J. W. Orr, resigned. The appointments were confirmed.

Mr. Bryan in Nashville.

Nashville, Tenn., March 12.—Thursdays at 11 o'clock, by invitation, William J. Bryan addressed both houses of the legislature and a large number of citizens in the house of representatives. Mr. Bryan spoke for an hour upon the basic principles of government, and during his speech criticised railroads and corporations and corporate influences at length.

Escaped from an Illinois Jail.

Rushville, Ill., March 12.—Thomas Beghtol, George Van Order and Sylvanus Tell, escaped from the Schuyler county jail by raising a stone out of the jail wall. They are charged with robbery.

Prison Made Goods
MUST BE LABELEDSAY BUT FOUR WERE KILLED
Lives Lost in the Evansville & Terre Haute Wreck.

Evansville, Ind., March 12.—If corroborative testimony is worth anything, only four lives were lost in the Evansville & Terre Haute wreck near Hazelton. The dead are: GEORGE A. SEARS of Terre Haute, conductor.

JOSEPH BOLEMAN of Evansville, fireman.

HERBERT ALLEN of Evansville, late doorkeeper Indiana legislature. ONE PASSENGER, NAME UNKNOWN, supposed to be a traveling salesman.

The fact that some business cards were found floating about after the wreck having given rise to a report that two passengers were missing. One of the cards bore the name of J. T. Phillips, Fort Wayne, and the other name of a book firm at Chicago.

The injured:

John McCutcheon of Evansville, engine, cut, bruised and scalded, but not seriously.

Baldwin Hauelson of Evansville, Ind., brakeman, foot horribly mashed and otherwise bruised.

W. F. Henderson of the Henderson comedy company, leg broken.

MR. LAMONT'S ORGAN
"ROASTS" CEN. DOE

SAYS THE JANESEVILLE SOLDIER WAS FIGUREHEAD.

Secretary Didn't Like Him, and As He Could Not Get Him Transferred, the President, Who Was Lamont's Friend, Assigned the Warrior No Duties to Perform.

The eastern papers lose no opportunity for taking a fall out of General Doe, the assistant secretary of war.

In an article showing the complications which confront the heads of the departments, in not being able to select their own assistants, The New York Sun has General Doe a hard rap by saying that he has had nothing to do since he was placed in the position, explaining it this way:

"After the beginning of the Cleveland administration, J. B. Doe of Wisconsin, was appointed assistant secretary of war by the president on the recommendation of Senator Vilas. Secretary Lamont soon found that General Doe was not the kind of man he wanted, that they had conflicting ideas as to the management of the war department, and that it would be better not to have any assistant secretary at all than to have one whose views constantly ran counter to those of the secretary."

Tried to Unload Him.

"Col. Lamont therefore endeavored to have Mr. Doe transferred to some other branch of the public service, but his hands were tied by the influence of Senator Vilas with the president. Thereupon the secretary settled the matter to his own satisfaction at least by failing to assign any duties to Mr. Doe, and Mr. Vilas' friend has been a mere figurehead in the assistant secretary's office."

This will be news to the friends of Col. Doe, who have believed that he has had much to do in his position as assistant secretary. But The Sun is a special spokesman for, and a friend of Secretary Lamont, and should know whereof it speaks.

WASTE MONEY ON "AD" FAKES.

Merchants Patronize Strangers but Kick it Customers do.

Any number of Janesville merchants claim that they cannot afford to advertise in a home paper. In spite of this a number of them who thus complain will advertise with every faker who drops into town. "Write-ups" are given and it costs more than a legitimate advertisement in a newspaper. These same merchants will stop reporters almost daily and want them to roast people who may happen to purchase goods in Chicago or Milwaukee. Home papers are all right when they do the roasting, yet when the merchants have any coin to part with they prefer to give it to some stranger to take away with him.

The sooner merchants learn that newspaper advertising is the only kind that brings results the better they will be off. It pays even merchants to trade at home.

THE MEN ACCEPTED
A CUT IN WAGES

LOCAL TAILORS WORK FOR LESS WAGES.

Ten Per Cent. Reduction Is Agreed Upon, and Suits Will Sell At A Lower Price—Competition of the Clothiers Who Are the Tailors' Agents, and Hard Times the Cause.

Members of the local Tailors Union have accepted a cut in their wages of 10 per cent. The action was taken at a meeting of the union called to consider a proposition made to them by the local merchant tailors. Local clothing merchants have been doing a tailoring business, as agents for outside firms, at cheap prices and it is said that they have cut into the regular tailoring firms but now it is announced, the merchant tailors intend to lead them a merry chase. It order to accomplish this end they had to reduce expenses. The matter was fully explained to the Tailors Union and the union immediately granted the request of their employers. The change means a saving of \$1.25 to the merchant tailor, on an average, on every suit of clothes made.

A prominent tailor said that the union did no more than was right. Merchant tailors have not been making a fortune since hard times have come on, but they say they fail to see where the others have made much profit on their tailoring business either. Local firms have received their spring woolens, and claim to have purchased the same at low prices. They have opened the ball with made-to-order suits at eighteen and twenty dollars.

"Well?"

"Well, it's a toss-up as to which married for money. When you see him you think she did, and when you see her you think he did."—Chicago Post.

Used to It.

"Don't you think \$40 a week alimony is a little too much to demand?" asked the referee in the divorce case, "when he is only making \$50?"

"No, I don't," said the lady. "That's what I used to make him gimbis while I was livin' with him."—Cincinnati Enquirer.

Time It Was Learned.

"Yes," she told her dearest friend, "I have been practicing economy of late."

"It's almost time," came the voice of her husband from the next room, "that you learned to play it without notes."—Chicago Post.

SURVEYED THE LINE
FOR A SIDE TRACKCHICAGO & NORTHWESTERN
ENGINEERS HERE.

Come to Talk Matters Over With Mr. Blabon With Reference to Running a Spur to the New Power House - Extension of the Line Talked Of.

Chief Engineer J. S. Robinson and Assistant Engineer Shumway of the Chicago and Northwestern railroad arrived in the city on the noon train from Chicago for the purpose of conferring with George W. Blabon in reference to the street car line. If the power house is located at the corner of the Beloit road and Eastern avenue, in order to receive coal direct from the cars, side tracks will have to be laid, so the O. & W. officials come up to lay out the route and figure up the expense. There is little doubt but what the plans now proposed will be carried out. It is the intention to run the side track from the spur track that now crosses Eastern avenue, south on the avenue to the corner of the Beloit road. The plans for the power house have not been completed, but Mr. Blabon said that the structure would be in two separate parts—one to be used as the power house and the other as a car barn.

To rebuild the road in first class order, will cost at least \$10,000, which sum does not include the power house.

As to proposed extensions of the road, Mr. Blabon had but little to say. He expressed the wish that Beloit was nearer so that connections could be made.

Others who are perhaps in a position to know, say that extensions will be made and that they will be more than mere spurs, too.

Mr. Blabon met the members of the council at City Attorney McElroy's office last night, and asked that his franchise be amended to allow him to shut down the line three months in the winter.

LEAF MEN ARE STILL ACTIVE

Volume of Business Is Decreasing. However, As Crops Are Scarce.

Buyers are still actively riding in quest of the remnants of both old and new crops remaining in the hands of the farmers, says The Janesville Leaf.

Everything is being picked up, even the haircut and rusty tobacco that has been neglected until within a short time.

The volume of business is becoming smaller, and there is less tobacco to be bought. Buyers declare that some sections are almost entirely bare of tobacco of any kind and much riding has to be done to get anything of consequence.

The first of April will see the tobacco of this state practically cleaned up from the farmers' hands. So eager are some of our buyers to get a share of what is left that they are riding only the fastest horses, and Dane Rumor has it that one of our local dealers ran his horse some distance to get to a certain farm three minutes ahead of a rival in another market, and he got the crop. Nowadays the buyers line up in front of a shed where the crop is unsold, and they are called aside by the farmer after the manner of the patrons of a barber shop.

Among the transactions reported are 600 cases bought by F. S. Baines; 240 cases sold by Rudolph, Haviland & Son; 80 cases of old and 10 cases of new bought by A. L. Fisher; 30 cases sold and 33 acres of '96 bought by Robert Erler. S. B. Hedges has bought and sold several small lots.

George H. Rumrill has purchased a number of crops of the farmers; J. L. and M. F. Greene, Joseph Grundy, Samuel Grundy, Soverhill & Porter, L. B. Carle, A. N. Jones, J. A. Decker, J. A. Ryan and several others are riding from this market. Deliveries and shipments are frequent.

FORM NEW TAILORING FIRM

J. B. Dearborn and H. V. Allen Engage in Business—J. M. Kneff with Them.

Herbert V. Allen, formerly of the firm of Kneff & Allen, has formed a copartnership with J. B. Dearborn, and the new firm will run a merchant tailoring establishment in the store now occupied by C. W. Wisch in the Pheobus block. John M. Kneff will remain with the new firm, and will do the cutting. The rooms now occupied by the Angleworm club, on the third floor, will be used as the tailor shop.

The title of the new firm will be Dearborn & Allen. Both of the members have been well and favorably known in this city for many years, and that they will be given a large share of the public patronage, goes without saying.

The store will be completed refitted for them, and when they get their stock arranged, they will have one of the handsomest places of business in the city. Mr. Wisch has not yet decided where he will locate, although he has several stores under consideration.

A Reputation For High Quality Helps In Business.

Since starting this \$1.47 sale on ladies' \$3, \$3.50 and \$4 shoes, we have sold hundreds of pairs. We know a great deal of the quick shoe sale was due to the fact of our never misrepresenting our stock in any of our advertising or through any of the people connected with our house. Of course the low price had much to do with the sale but if people were not satisfied and knew that they were not securing good shoes of late style, they would not buy them at any price. Judge Phelps Disciplines a Liquor Case Witness—Other Court News.

Olaf Gilbertson, one of the witnesses who "didn't remember" when testifying at the trial of the Ennis case, was brought before Judge Phelps this morning, to answer to the charge of contempt of court. Attorneys Smith and Pierce appeared in behalf of the defendant, and Judge Phelps, after giving the young man plenty of good advice, imposed a fine of fifteen dollars and costs, which he paid. On the twelfth of last January Gilbertson swore before Judge Phelps that he purchased liquor of Ennis at Orford and it was largely his testimony that a warrant was sworn out for the arrest of Ennis. When Ennis was brought to trial this week Gilbertson was placed on the stand and his answer to every question was "I don't remember."

In the case of the State of Wisconsin against Charles Folsom a change of venue was taken this morning from the municipal court to the circuit court, and the case will come up at the April term. In default of \$3,000 bail the defendant was remanded to jail.

Anthony Hanson, a farmer who resides near Edgerton, was registered at the jail this morning for six days. Hanson, it is claimed, drank a pint of clear alcohol—and the "whitelight" had the usual effect.

FASHION NOTES.

Boleros of Black, Jet Embroidered Tulle Theater Bodices.

For evening wear silks and gauzes, illuminated with lines of metal woven into the fabric, are much employed. They make charming theater bodices, and require little trimming. Pale pink and silver, green or violet and steel or gold are among the fashionable combinations.

Tennis flannel is now used by many mothers for the house dresses of babies and little children. It comes in very pretty, delicately tinted stripes, and the little

OUT OF DOOR COSTUME.

frocks made of it may be washed as easily as a handkerchief. Lace or embroidery serves as trimming. The material is neat, inexpensive and durable and to be highly recommended for its softness and warmth.

For the theater it is not necessary to have a costume en suite of great elaboration, as only the upper part of the figure is in evidence. A black satin skirt will serve with innumerable bodices, and the skirt need not be absolutely fresh either. The corsage, however, must be immaculate and must be of a kind that lights up well. The sleeves of all such bodices are long, extending over the hand in the medieval style.

The fashion of pale gloves continues, but glace kid has almost entirely replaced suede. This is fortunate, as the dull, uneven surface of suede makes its purity even more short lived than that of kid, and gloves of the latter become soiled soon enough. Putty color, pearl, lavender, cream and white are the preferred tones for gloves even for the street, white in particular being favored.

The illustration shows an out of door costume of eucalyptus green amazon cloth. The tablier is divided on each side from the rest of the skirt by panels of red and black plaid silk. The panels are crossed by short straps fastened by gold buttons, and black embroidery adorns the foot of the front of the skirt. The blouse of plaid silk is covered by a slashed bolero of green cloth ornamented with black embroidery and fastened with buttoned straps. The sleeve is arranged with plaited at the top, over which passes a strap which fastens on the shoulder. The waist is trimmed with straps and gold buttons and is finished by a ruff of lace. The collar and belt are of black satin.

CONCERNING VEILS.

Something About Their Color and Utility.

Bright Spots Not Becoming.

Everything to be found in the wardrobe, from footwear to headwear, has its detractors and its defenders. The veil, for instance, is at once warmly recommended and strenuously opposed. Its enemies maintain that it is ruinous to the eyes

JACKET.

and foolish and useless in every respect, while its friends declare that, so far from injuring the sense of vision, it protects the eyes from glare and dust and preserves the complexion. This is one of the disputed points that will never be settled, of course, although there are certain sorts of veils that everybody will join in heartily condemning—those of bright red, green and purple, for example. Black, white, gray and brown are the most suitable and becoming colors for veils and always hold their own with well dressed women whatever freaks may be indulged in by passing fashion. One of the newest varieties of veiling is a heavy black net, dotted with large chenille spots of a bright color, yellow green, violet and similar tints being used. This is striking, but not particularly becoming, although it is less trying to the complexion than the entirely bright veils previously mentioned. Lace veils, expensive as they are, and beautiful as they often are in themselves, are not at all favorable to the face. The heavy border too frequently gives the effect of a beard, which is certainly far from desirable. Jetted veils

Conundrum: What is it that grows in winter as well as summer.
Answer: Our business.
Reasons--many.
If you are not a customer we invite you.

SPRING lines are fast filling up, eastern packages come to us every day with the brightest and freshest goods from import order. Dry Goods, Silks, Curtains, Wash Goods, Embroideries, Laces, Linens, Handkerchiefs, Braids, Gimp.

Separate Skirts--

It costs more to start a railroad train than it does to run it many miles after it is started. So also with a cloak department. That's why we keep it going--no more than through with one season when we are ready for you with the newest for the next. Separate Skirts are a decided go. Ours are cut and finished right, fine gores, narrow front, circular sides. The hang of them is beyond criticism. Beautiful Skirts of velour, silk, etamine, canvas--taffeta, percale or silk lined.

Hoary old winter will flirt around in the lap of gentle spring for several weeks yet, so prudent people will continue to take advantage of the present jacket snap--half and less.
